

HOW TO CONVINCe NON BELIEVERS

DR. B. S. DARBARI, ALLAHABAD

People are so much accustomed to big and substantial doses of Allopathic, Ayurvedic and Yunani medicines that they find it difficult to believe that a very tiny dose of Homœopathic or Biochemic medicine can bring about cure after the big doses aforesaid have failed. Some of these non-believers, specially those interested in other systems, attribute the cures to chance and say that the patient would have been cured even if no medicine had been given. I beg to say that as a result of extensive research with Homœopathic and Biochemic medicines extending over 47 years during which 2 lakh patients have been treated by me free, I have discovered some proofs which should convince everybody except, of course, those who being interested in some other system, refuse to be convinced.

We all know that if a man gets burnt, a blister is formed, this blister takes about a week or two to disappear unless it is removed earlier by a pair of scissors. In these cases, a mark is left behind. I have discovered that if a mixture of about 1 grain each of the following Biochemic medicines:—Ferrum Phos 12x, Kali Mur 3x, Kali Sulph 3x, Natr. Mur 3x, and Natr. Phos 3x mixed in 2 oz. or 1 Chatak of water is applied to the blister, the latter disappears in half a minute and the pain also goes away in another half minute and no mark of burning is left at all. I have tried this in many cases, including that of the daughter of Mr. O. N. Misra, the then District Magistrate, Allahabad and found that it never fails.

I am prepared to demonstrate this by burning my own finger and causing the blister so formed to disappear. I am sure there is no other medicine in any other system which can do this. Kali Mur 3x, gives immediate relief to granules in eyelids and completely cures in a few days. This disease is considered incurable by all other systems of medicine. Similarly a mixture of Ferr Phos 12x, Kali Mur 3x, Mag Phos 3x, Natr Phos 9x, and Natr Sulph 3x, cures T.B. Each patient costs

less than 1 pice to cure ; my formulæ for Piles, Constipation and Tonsilitis and some other diseases are sure cures for those diseases, considered incurable by other systems. There are 368 such formulæ.

If a man takes a heavy meal containing fatty food, he feels discomfort and often gets diarrhœa, indigestion or dysentery. A pill of the Homœopathic medicine, Puls 6 removes this discomfort and cures in a few minutes. After these proofs, nobody can say honestly that these medicines are not effective. In fact, they are more efficacious than those of any other system of medicine.

In cases where Homœopathic medicines of high potency are used, the amount of medicine therein is so small that even the best scientific tests fail to show the existence thereof ; yet if a pill thereof is taken every hour for 2 or 3 days, symptoms of that medicine will appear, which can be foretold.

WHAT SHALL BE OUR ATTITUDE TOWARDS HOMŒOPATHY.

(Continued from page 159)

anxious to show by examples, which everyone can easily prove, that homœopathy is not the nonsense which it is branded, and that we can learn a deal from it. I have been fully conscious that in doing this I would be confronted by a barrier of prejudice and doubts, and that my efforts might prove futile, had my ammunition been purely scientific argument.
