The West Bengal State Homœopathic Co-ordination Committee in its meeting held on 1.7.62 has decided to hold the 2nd W. B. State Homœopathic Practitioners' Conference in Calcutta by the last week of December 1962. We hereby draw the attention of all Homœopathic Practitioners' (Registered or not) and lovers of Homœopathy, so that they may release their respective initiative and gird up their loins from here and now, to make the 2nd Conference far bigger and more organised than the 1st one, so that they may muster in the conference in such a huge number that the unified and common demands raised by the gathering becomes inexorable to the Authorities as well as to the Public.

With a view to appeal to the generous hearts of all Homœopathic Practitioners irrespective of their creed and organisational affinity, Homœopathic firms and sympathisers, of Homœopathy, we beg to revive their memory as to the perspective of the next conference.

The West Bengal State Homœopathic Practitioners' Conference that was held at Purulia on 24th & 25th of December 1961 will be ever remembered as a significant event in the history of Homœopathy in Bengal, mainly on account of two outstanding factors, viz.—(1) Delegates from almost all the organisations and groups of Homœopathic practitioners from each and every District of West Bengal participated in the conference; (2) All the delegates were unified and passed a unanimous resolution to form a committee representing all the Homœopathic organisations, big or small as a magnificent result.

Apart from these there are many eminent Homœopaths, ever-active in the service of Homœopathy who have been members of the Co-ordination Committee as individuals, without any party affiliation.

The purpose of the present Co-ordination Committee is to build a platform from which each and every Homœopathic organisation will be able to work unitedly with all others, keeping its own integrity and existence intact, for the upliftment and benefit of Homœopaths raising forcefully the common legitimate demands, by pioneers in the service of the poverty-stricken people as well as in representing the interests of Indian Homœopaths.

Of the various objects of the next conference the following are the main:—(1) Placing demand to the Government for

legislative enactment of the Homœopathic Bill. (2) Taking resolution and line of action for securing Registrations of all non-registered Homœopaths. (2) Drafting and adopting a constitution for the formation of a permanent and powerful united platform. (4) To decide upon the ways and means for fulfilling the unaccomplished objectives and resolutions of the Purulia Conference. (5) To pass resolutions and adopt lines of action for the propagation of Homœopathy in every District, for securing unrestricted facilities and opportunities for Homœopaths in all fields—official or unofficial, and for maintaining the purity and integrity of Homœopathy in the field of education.

So, we hope, every Homœopath will engage himself forthwith for making this big affair a real success and we appeal most earnestly to all to come forward with all their might and participate and take due role in the preparatory activities of the Calcutta Conference.
