

A scientific convention on the World Homoeopathy Day: 'Homoeopathy: People's choice for wellness' – A Conference Report

Babita R. Kondle*, Divya Taneja, Subhash Kaushik

Central Council for Research in Homoeopathy, New Delhi, India

Abstract

Three apex bodies, namely the Central Council for Research in Homoeopathy, the National Commission for Homoeopathy and the National Institute of Homoeopathy, jointly organised a scientific convention on the occasion of the World Homoeopathy Day to commemorate the 267th birth anniversary of the founder of Homoeopathy, Dr *Christian Fredrich Samuel Hahnemann* which was held on 9 and 10 April 2022 at New Delhi on the theme 'Homoeopathy: People's Choice for Wellness'. Over the 2 days, scientific sessions and interactive meets were held. This convention was an opportunity to review the developments in the field of Homoeopathy and formulate future strategies for the advancements of Homoeopathy to make homoeopathy the first choice for people for wellness.

Keywords: Interactive meet, Public health, Research Evidence, Wellness, World Homoeopathy Day

INTRODUCTION

The Central Council for Research in Homoeopathy (CCRH), New Delhi, National Commission for Homoeopathy (NCH), New Delhi, and National Institute of Homoeopathy (NIH), Kolkata, jointly organised a Scientific Convention on the occasion of World Homoeopathy Day. The conference, with the theme 'Homoeopathy: People's Choice for Wellness', brought together homoeopathic practitioners, researchers and academicians to discuss the potential role that Homoeopathy can play in the wellness of people.

Held on 9 and 10 April 2022 at Bharat Ratna C. Subramaniam Auditorium, New Delhi, the World Homoeopathy Day commemorated the 267th birth anniversary of the founder of Homoeopathy, Dr Christian Friedrich Samuel Hahnemann.

INAUGURAL CEREMONY

Inauguration was done by Sh. Sarbnanda Sonowal, Hon'ble Union Minister, Ministry of Ayush and Hon'ble Union Minister, Ministry of Ports, Shipping and Waterways, along with Dr Mahendrabhai Munjpara, Hon'ble Minister of State (MoS) for Ministry of Ayush and Minister of State

(MoS) for Ministry of Women and Child Development and Sh. Manoj Rajoria, Member of Parliament, as Guest of Honour. Vaidya Rajesh Kotecha, Secretary, Ministry of Ayush, Sh. Pramod Kumar Pathak, Special Secretary, Ministry of Ayush, Sh. D. Senthil Pandiyan, Joint Secretary, Ministry of Ayush, Padmashree Dr VK Gupta, Chairman, Scientific Advisory Board, CCRH, Dr Sangeeta A. Duggal, Advisor, Homoeopathy, Ministry of Ayush, Dr Anil Khurana, Chairman, NCH, Dr Subhash Kaushik, Director General, CCRH and Prof (Dr) Subhas Singh, Director, NIH, graced the occasion.

Since the formation of the Ministry of Ayush, tremendous progress has been made in Homoeopathy regulations, educational standards, research and public health activities and practice quality. India is a model of healthcare,

integrating traditional medicine, Ayush systems and conventional medicine to enhance health, wellness and happiness in people. Homoeopathy is regulated under the Ministry of Ayush and can play an essential role in improving wellness through its approaches which are safe and effective.

The convention had more than 1000 participants, including homoeopathic researchers, scientists from interdisciplinary streams, practitioners, students, industrialists and representatives of various homoeopathic associations [Figures 1 and 2].

RELEASES DURING THE CONVENTION

- Documentary videos:
 - *Bharat me Homoeopathy ke 75 varsh* developed by CCRH.
 - *Homoeopathy: Ek Sashakth Chikitsa Paddhati* developed by CCRH.
- Books:
 - *Homoeopathic Pathogenetic Trial (Drug Proving Research) Portal* of the CCRH.
 - *Experimental Homoeopathy*; a book by Dr Girish Gupta.
 - *Annotated edition of chronic diseases, their peculiar nature and Homoeopathic cure*; a book by

Figure 1: Dr Subhash Kaushik, Director General, giving the welcome address in the inauguration session of the scientific convention

Figure 2: A scientific session in progress

Dr Anusware Dev. A and Dr Arundas Menon.

- *Journal of Homoeopathy*, Volume 2 of the journal by NIH.
- *A Journey Through Homoeopathic Research Publications: a compilation of CCRH publications* by CCRH
- *Homoeopathic Medicines in COVID-19 – A Therapeutic Compendium* developed by CCRH based on research studies and practical utility of treating COVID cases.
- Souvenir of the Convention, '*Homoeopathy: People's Choice for Wellness*' by CCRH.

SCIENTIFIC SESSIONS

The session-wise speakers' details are given in Table 1.

RESEARCH EVIDENCE IN PUBLIC HEALTH

The session was chaired by Dr Raj K. Manchanda, Director, Ayush, Government of Delhi and Dr Kanwal Sethi, former Advisor (Homoeopathy), Ministry of Ayush. The speakers discussed different public health approaches developed and implemented over the past few years to enhance the utilisation of homoeopathy in public health, including health promotion and disease prevention. CCRH, Delhi Government and local non-governmental organisations have conducted a number of public health programmes in research mode. These are on specific conditions such as COVID-19, Post-COVID Functional Disability and Dengue, identified population groups such as geriatrics and adolescents and some pre-identified areas. Public participation is needed to create consciousness for homoeopathy, which can be expanded by various models, such as the involvement of healthcare workers from within the community to contribute to curative, preventive and promotive care, and promote homoeopathy as a cost-effective way of treatment in public health.

COVID-19: RESEARCH EVIDENCE

The session was chaired by Dr Anil Khurana, Chairman of NCH and Dr Kanjanksha Ghosh, Chairman, Ethical Committee, CCRH and former Director, National Institute of Immunohaematology, Indian Council of Medical Research. The studies presented revealed that *Arsenicum album* 30C, recommended by the Ministry of Ayush as a homoeopathic prophylactic for COVID-19, provided consistent protection against COVID-19 infection. Immunomodulatory potential of *Arsenicum album* 30C was seen in cell culture-based studies taking RAW 264.7 cell as a representative of macrophage with a significant increase in the expression of innate immune markers such as TLR3 and TLR7 and effector molecules such as MYD88 and NFκβ. Another study was about how add-on homoeopathic treatment along with the standard of care for COVID-19 reduced morbidity and mortality of respiratory distress in severe COVID-19 patients. An *in vitro* study

presented in the session identified a positive role of Cinchona Mother Tincture as an antiviral against the coronavirus.

EVIDENCE-BASED CASE REPORTS

The session was chaired by Dr M.P. Arya, Member, Scientific Advisory Board (SAB), CCRH, and former Principal, D.S. Homoeopathic Medical College, Pune. The session encouraged young scientists to showcase their successful cases and to sensitise the students and practitioners on how to present the cases they treat in their hospitals, OPDs and clinics. Cases of warts, vitiligo, manic episode, infertility, prurigo nodularis, alopecia areata, nasal polyps, endometrial polyps and erythrodermic psoriasis treated with individualised homoeopathy were presented. Assessment of case response on Modified Naranjo Criteria to validate treatment effects was discussed in detail. The criteria provide an objective causal assessment of treatment response, thereby enhancing credibility and supporting evidence in favour of homoeopathy. Health information systems such as Ayush Health management and information system and research database like Ayush research portal are further initiatives by the Ministry of Ayush to enhance the credibility of homoeopathic treatment and other Ayush systems. The homoeopathic Clinical Case repository (HCCR) developed by CCRH permits the publication of cases treated with homoeopathy to create metadata of clinical cases. The details of the HCCR portal were also presented in the valedictory session of the convention.

HOMOEOPATHIC DRUG DEVELOPMENT: ISSUES AND CHALLENGES

The session was chaired by Dr J.D. Daryani, Chairperson of the Special Committee on Drug Proving, CCRH, Dr S.P. Singh, former Advisor, Homoeopathy, Ministry of Ayush; former Director CCRH; Chairperson of Special Committee of Drug Standardisation and Dr S.K. Tiwari; former Principal, Fr. Muller Homoeopathic Medical College and Hospital, Mangalore.

The discussion in the session was focused on various aspects of drug development, a drug standardisation, proving drugs in healthy human volunteers and verifying symptoms appearing during drug proving in clinical settings. It was opined that a uniform methodology for drug development would ensure that more drugs are added in homoeopathy, whose authenticity and quality are assured, with reliable pathogenesis, to ensure its acceptance and usage by profession.

INTERACTIVE MEETS WITH PRINCIPALS OF COLLEGES

The sessions were chaired by Dr Anil Khurana, Chairman, NCH and Dr MP Arya, Member, Scientific Advisory Board (SAB), CCRH, former Principal, D.S. Homoeopathic Medical College, Pune. Evidence from the world shows that the most effective teaching and learning processes at

the higher education level occur in an environment with a strong culture of research and knowledge creation. NCH held consultative meets with the principals and faculty of the homoeopathic colleges to identify strategies for innovation in education. These include the introduction of research methodology and biostatistics at undergraduation and postgraduation levels, integration of e-contents into teaching-learning, online and digital education by ensuring equitable use of technology, undertaking collaborations, introducing elective courses for student personal and professional development. Furthermore, the hospitals associated with the colleges need to enhance OPD and IPD services and modernise hospital administration and services to provide wholistic quality care. It is imperative to build upon the capacity of the organisations by developing the art of prioritising problems, training for knowledge, skill self-efficiency, self-confidence and behaviour changes.

STATE HOMOEOPATHIC BOARD'S/COUNCIL'S REGISTRARS' MEET

The session was chaired by Dr Anil Khurana, Chairman NCH. 'One Nation, One Registration' wherein the National Register, its procedure of formation and listing of homoeopathic practitioners after receiving data from respective State Boards/Councils, along with other aspects related to registration of practitioners, was discussed. The need for e-registration and synchronisation between state and national registers so that hassles towards registration may be reduced with optimum use of resources at the time of crisis was also discussed. NCH Act 2020 envisages a robust medical education system to deliver quality homoeopathic medical professionals, transparent assessment of medical institutions, maintenance of the national register for homoeopathy and enforces high ethical standards in all aspects of medical services. The session had deliberations on the duties of a homoeopathic practitioner towards the profession, patients and society.

HOMOEOPATHIC EDUCATION AND PRACTICE

The session was chaired by Dr Raj K. Manchanda, Director, AYUSH, Govt. of NCT of Delhi and Prof. (Dr) Subhas Singh, Director, National Institute of Homoeopathy. The speakers discussed the need for quality homoeopathic education, where homoeopathic colleges could be equipped to provide world standard curriculums delivered by highly qualified and experienced teachers using the latest delivery techniques. Relevant technologies can be used in this expanding field, including online lectures, examination, telemedicine, virtual reality, computer-assisted learning (flipped classrooms), mobile devices (personal digital assistants) and digital medical records.

ROLE OF HOMOEOPATHY IN LIFESTYLE DISEASES

The session was chaired by Dr Sangeeta A. Duggal, Adviser (Homoeopathy), Ministry of Ayush and Dr Hari Singh, former Research Officer, Central Council for Research in

Homoeopathy. Speakers discussed that scientific evidence is the most important area where dedication is required to promote Homoeopathy in the world. Outcomes of studies on hypertension, breast fibroadenoma, diabetic foot ulcer and hypolipidemia were reported. It was deliberated as to how homoeopathy can be applied meaningfully for all, especially for elderly population, in the prevention, treatment and rehabilitation of lifestyle conditions. Lifestyle measures such as a plant-based diet, exercise, sports and mental training can be combined with homoeopathy to achieve the best possible outcomes and reduce the use of side-effect-laden drugs.

VALEDICTORY SESSION

An open forum was held to conclude the 2-day convention, wherein the participants presented their views and experiences.

The participants suggested that innovation is the need of the hour in research and education. Educational institutes need to adopt information technology and automation in teaching. There should be more active collaborations in the profession. Research outcomes should be translated into clinical practice more effectively.

This convention was an opportunity to review the path trodden so far and achievements in the field of homoeopathy

and to formulate future strategies for the development of homoeopathy. There is an imminent need to initiate a dialogue among the major stakeholders of homoeopathy, which will address much-needed practice standards in clinical research informatics, data standards in clinical research, policy issues, educational standards and instructional resources. This can be achieved by merging clinical care delivery and research as a part of a changing paradigm in global healthcare delivery in the context of rapid technological innovations. A necessity to identify and propose strategic actions towards an effective and efficient inclusion of homoeopathy in integrative care is indispensable.

CONCLUSION

The deliberations during the scientific convention aimed at enhancing the acceptability of homoeopathy by the public in general and giving insights into a future roadmap for advancing homoeopathy as the first choice for people's wellness.

ACKNOWLEDGEMENT

We acknowledge the presentations made by all the speakers and acknowledge all the moderators and rapporteurs for compiling the report of the conference.

Une convention scientifique sur la Journée mondiale de l'homéopathie: "L'homéopathie: Le choix du peuple pour le bien-être" - Rapport de conférence

Trois organismes de premier plan, à savoir le Central Council for Research in Homoeopathy, la National Commission for Homoeopathy et le National Institute of Homoeopathy, ont organisé conjointement une convention scientifique à l'occasion de la Journée mondiale de l'homéopathie pour commémorer le 267^e anniversaire de naissance du fondateur de l'homéopathie, le Dr Christian Fredrich Samuel Hahnemann. La convention s'est tenue les 9 et 10 avril 2022 à New Delhi sur le thème "Homéopathie: Le choix du peuple pour le bien-être". Durant ces deux jours, des sessions scientifiques et des rencontres interactives ont été organisées. Cette convention a été l'occasion d'examiner les développements dans le domaine de l'homéopathie et de formuler des stratégies futures pour l'avancement de l'homéopathie afin d'en faire le premier choix des gens pour le bien-être..

Eine wissenschaftliche Tagung zum Welthomöopathietag: "Homöopathie: Die Wahl der Menschen für das Wohlbefinden" - Ein Tagungsbericht

Drei Spitzengremien, nämlich der Zentralrat für Forschung in der Homöopathie, die Nationale Kommission für Homöopathie und das Nationale Institut für Homöopathie, organisierten gemeinsam einen wissenschaftlichen Kongress anlässlich des Welthomöopathietages, um den 267. Geburtstag des Begründers der Homöopathie, Dr. Christian Fredrich Samuel Hahnemann, zu feiern. Geburtstag des Begründers der Homöopathie, Dr. Christian Fredrich Samuel Hahnemann, zu gedenken. Der Kongress fand am 9. und 10. April 2022 in Neu-Delhi statt und stand unter dem Motto "Homöopathie: People's Choice for Wellness" statt. Während der zwei Tage wurden wissenschaftliche Sitzungen und interaktive Treffen abgehalten. Der Kongress bot die Gelegenheit, die Entwicklungen auf dem Gebiet der Homöopathie zu überprüfen und zukünftige Strategien für die Weiterentwicklung der Homöopathie zu formulieren, um sie zur ersten Wahl für das Wohlbefinden der Menschen zu machen..

विश्व होम्योपैथी दिवस पर एक वैज्ञानिक सम्मेलन: 'होम्योपैथी: कल्याण के लिए लोगों की पसंद' - एक सम्मेलन रिपोर्ट

राष्ट्रीय होम्योपैथी आयोग, राष्ट्रीय होम्योपैथी अनुसंधान परिषद और राष्ट्रीय होम्योपैथी संस्थान नामक तीन शीर्ष निकायों ने संयुक्त रूप से होम्योपैथी के संस्थापक डॉ क्रिश्चियन फ्रेडरिक सैमुअल हैनिमैन की 267 वीं जयंती मनाने के लिए विश्व होम्योपैथी दिवस के अवसर पर एक वैज्ञानिक सम्मेलन का आयोजन किया। यह सम्मेलन 9 और 10 अप्रैल 2022 को नई दिल्ली में 'होम्योपैथी: कल्याण के लिए लोगों की पसंद' विषय पर आयोजित किया गया था। दो दिनों में, वैज्ञानिक सत्र और संवादात्मक बैठकें आयोजित की गईं। यह सम्मेलन होम्योपैथी के क्षेत्र में विकास की समीक्षा करने और होम्योपैथी की उन्नति के लिए भविष्य की रणनीति तैयार करने का एक अवसर था, ताकि यह लोगों के कल्याण के लिए पहली पसंद बन सके।

una convención científica sobre el Día Mundial de la Homeopatía: "Homeopatía: La elección de las personas por el bienestar" – Informe de la Conferencia

Tres órganos principales, a saber, el Consejo Central de Investigación de la Homeopatía, la Comisión Nacional de la Homeopatía y el Instituto Nacional de la Homeopatía, organizaron conjuntamente una convención científica con ocasión del Día Mundial de la Homeopatía para conmemorar el 267th aniversario del nacimiento del fundador de la Homeopatía, Dr. Christian Fredrich Samuel Hahnemann. La convención se celebró los días 9 y 10 de abril de 2022 en Nueva Delhi sobre el tema de la Homeopatía: La elección de las personas para el bienestar. Durante los dos días, se celebraron sesiones científicas y reuniones interactivas. Esta convención fue una oportunidad para revisar los desarrollos en el campo de la Homeopatía y formular futuras estrategias para el avance de la Homeopatía, para convertirla en la primera opción para las personas por el bienestar.

世界顺势疗法日的科学大会: '顺势疗法。人们对健康的选择 - 一份会议报告

三个顶级机构,即中央顺势疗法研究委员会、国家顺势疗法委员会和国家顺势疗法研究所,在世界顺势疗法日之际联合组织了一次科学大会,以纪念顺势疗法创始人克里斯蒂安-弗雷德里克-塞缪尔-哈内曼博士的267周年诞辰。该大会于2022年4月9日和10日在新德里举行,主题是"顺势疗法。人们对健康的选择"。在两天的时间里,举行了科学会议和互动会议。这次大会是一次回顾同济病领域发展的机会,并为同济病的发展制定未来战略,使其成为人们健康的首选。
